

# NEWS FROM PASTOR TITUS

We have come back from Turkana- Northern Kenya mission. It was full of blessings, very fruitful and adventurous. We thank God for safe trip to and fro and especially for His grace on our Car (Suzuki) which endured the terribly bad road from Kitale to Lodwar. Though we had few mechanical problems and punctures on the way, we did not have any major problem with the car. One time we stuck as we crossed a river going to Kanaodon but the kind people of Turkana came and helped to pull the car.

We preached at four market centers and as a result started 5 Grace Fellowships. We also held two leaders seminar at Kakongu and Keekunyuk. We could not reach to two of the places but we met the leaders from these places at Keekunyuk. People were very much receptive to the gospel and many accepted the Lord as their savior. Truly Turkana is unreached with the gospel. People in this place desperately need the gospel which has power to transform their lives. Our hearts melted as we interacted with these people and shared to us their life experiences. I and my colleagues appreciated so much the hospitality of the people of Turkana despite their intense poverty and hardships. Special thanks to John Ekaliban who was our host and all his colleagues. It was a big blessing ministering with them for 6 days. Lets pray that the light of the gospel continues to shine in this part of Kenya and beyond.
