THE DIRECTOR'S PERSPECTIVE

Ben Anderson

Green Light in Southeast Asia

Joyce and I traveled through seven countries of Southeast Asia from April 7 to May 15. The many opportunities we experienced have shown us that God has just switched on the green light in Southeast Asia. I believe you will agree after seeing the high points of our 39 days in Asia. What should we do when a red light turns green? GO, of course!

While Joyce encouraged our two missionary families in Thailand, I flew to Laos with missionary candidate Mel Guimba where we met Genesis Maraat. Each of us had misgivings about the feasibility of working in Laos, a communist country which makes regular appearances in *Voice of the Martyrs*. God rapidly set to work showing us how wrong we were. We attended a public church where we heard a clear message of salvation, we met with a dozen different people who are living in Laos sharing the gospel of Jesus Christ and we were able to see just how friendly and receptive are the Laotian people. Pray for Mel and Freda as they raise support and return by the end of the year.

Joyce and I met back up in Malaysia where Pastor Heng's house church keeps growing. At every meeting we saw new faces and also spoke at a church called The Way, Truth, Life Foundation. Pastor Heng gave an emotional testimony in which he expressed how he felt like he was wandering in the wilderness for years until a dispensational understanding of the Word showed him how we fit into God's plan.

In the Philippines we spoke at a youth conference attended by 400 Grace young people, several with mission interest. Then we challenged the national conference with the missionary theme *Preaching the Mystery to the Regions Beyond*.

The Philippine churches have been recipients of mission and are now seeing their own responsibility to the regions beyond.

Mark your calendars! We planned the 2012 Southeast Asia Grace Conference with delegates from five countries. The conference will be held in Bali, Indonesia, in May 2012. The Grace believers want to encourage each other and make plans for reaching all of Southeast Asia. Yes, you all are welcome to attend.

Indonesia held their second National Workshop attended by 80 leaders. We were encouraged by Rita in Balikpapan who uses her restaurant to share the gospel with Muslim customers. I was fascinated to see Bible verses painted on the walls next to the words *100% halal*. Dozens have accepted Christ—and the food is great also. Pastor Amirudin, himself a converted Muslim, serves in an area where Muslims have set off bombs, Christian teenagers have been beheaded and a pastor was shot in the head while delivering his message. Yet, Amirudin daily proclaims the gospel of God's grace. He and his team have planted seven churches.

Joyce and I represented TCM at the *Tokyo 2010 Global Mission Consultation*, a meeting of 1500 mission leaders from 110 countries. We learned how former mission fields are now joining the mission force, with Korea planning to send a total of 100,000 missionaries within ten years. Rapid training of new believers for ministry was emphasized, a key methodology of TCM since the beginning. Joyce was challenged to improve missionary care in TCM, and the board agreed by making her the *Coordinator for Missionary Care*.

Sometimes a part of me says, "Ben, are you sure you can keep up with all that God is doing?" Our base message, purpose and methodology remain unchanged from the day our first missionaries set foot on Philippine soil on January 1, 1958. Yet, our strategies, technologies and regions must adjust to the current situation.

Let us not shrink back from the task of worldwide evangelism. Some think we must focus on the United States, and I do weep for our nation which for 50 years was the greatest testimony

for Christ this world has ever known. A Swedish speaker at Tokyo 2010 commented that western Christianity initiated science as a way to understand God's creation. Now these disciplines are attacking their founding Biblical principles. Americans are ignoring Christ not because there is no witness, but because our society has become secular, humanistic and materialistic.

The truth is that most resources are spent among Christian people. If the world were divided into thirds, *World A* would be unreached people who have never heard the gospel, *World B* would be those who live among Christians and *World C* would be Christians. About 74% of mission resources are consumed in targeting *World C*—people who already identify themselves as Christian.

The only hope is Jesus Christ, for America and the world. In mission we must prioritize people by their access to Jesus Christ. Apostle Paul said, "It has always been my ambition to preach the gospel where Christ was not known, so that I would not be building on someone else's foundation." The gospel promises that "everyone who calls on the name of the Lord will be saved." But, "How can they believe in the one of whom they have not heard?" Our job as a mission is to make sure everyone has a chance to hear the gospel in understandable language. "We are therefore Christ's ambassadors, as though God were making his appeal through us."

Pray about key projects in the next six months. First, the board voted to survey Singapore with the intent of establishing a Southeast Asia regional office, to be conducted by board member Jesse Vaught and me. Transportation within Singapore and to other Asian countries is incredible, making it a strategic base for mission. Second, pray for rapidly opening ministries in Malaysia, Brunei and Laos. Third, pray for Joyce as *Coordinator of Missionary Care* to give all our missionaries the strong backup they need. Finally, pray for more workers for the harvest fields. Pray, "because a great door for effective work has opened to me, and there are many who oppose me." ☼

Lembean

GAA Seminary in Process

by Audy Ngantung

STTAM is the acronym standing for Anderson Higher Theology School of Manado. In August 1988 the Indonesia work began intensive training in the capital city of Jakarta under leadership of Brother Frans Tamarol, M.Ed, MS, who initiated the training in his large rented house. Vernon & Darlene Anderson, Dan & Jennifer Sidebottom took part in the start up along with Pastor Audy Ngantung, who began with the school and is now named as Rector of STTAM.

The purpose for STTAM in studying and teaching is to: 1) advance each student in faith and surrender to Jesus Christ the Lord, 2) upgrade his/her academic education, life attitude, character, values and skills useful for evangelism and 3) church planting and building up the faith of church members. This year the student body consisted of 32 students, 20 men and 12 women, taught by six teachers. The Theology program includes six semesters of in-class study with an additional two semesters of practice in the field. Presently a Bachelor of Theology degree is offered with expectation to extend to higher degrees along with a Christian Education degree.

STTAM Lembean came about when 6000 sq. meters of land were donated by the Lumintang, medical doctors, who were both original youth

Dedication Ceremony at new seminary location

Year VI for Indonesia's GAA Seminary

participants in the Manado work in the 70's. Recently 3,750 sq. meters more were added and the present construction plans began for three more classrooms along with men's/women's dorms. Two faculty families are ready to move into the area for the 2010/11 school year which also commemorates STTAM VI and the 22nd Anniversary in August. Transfer costs of \$3000 will enable these families to transfer from Jakarta to Lembean to help with teaching needs at the new building.

Budget for the school Costs of \$2200 per month include expenses for classes, food, dorms, construction, local transport, faculty wages, secretarial and utility expenses. Cost for final exams and graduation are \$165. One student pays \$60 per month. All of this operational expense must be met by donors of the school and student sponsors, both local and international.

Student Christian service during matriculation maintains three intensive goals:

- 1) All weekends are used for personal evangelism, public tract passing, helping church services with Sunday School teaching, Youth ministry and music.
- 2) During semester breaks students are expected to help minister in their home churches.
- 3) Semesters VII and VIII each student will be assigned to practice and lead in established churches

see *Lembean* on pg. 8)

Director Audy Ngantung, a pastor of GAA, has served in Jakarta for several years as Bible school faculty and GAA Treasurer.

PROPAGATING ... PERPETUATING

The Pauline Message In Indonesia

by Johan C. Pandelaki

Knowing the grace message and the dispensational approach to studying the Scriptures led me to understand that great truth and to immensely appreciate the awesome harmony of the whole Bible. As my knowledge of the grace message committed to the Apostle Paul grew, my intense desire and passion also grew to pass it on. It was too good to keep for myself!

In Indonesia, we faced a serious demand among our own grace workers and brethren for written materials, tools to use in their personal study and ministry. Almost all available materials were in English, however in Indonesia only a very little percentage speak and read English well. Fortunately missionaries helped and challenged us to learn English well. For the few of us who acquired enough ability to use English in our work and personal study, we felt somewhat comfortable and put aside the need for studying in our own language. Actually the Indonesian language (Bahasa Indonesia) originates from the Malayu language, spoken not only in Indonesia but also Malaysia, Brunei and Singapore. This language is currently spoken and understood by approximately 270 million people in

Southeast Asia—immense numbers yet to be reached.

A couple years ago I started investing my spare time translating *A Dispensational Theology* by Charles F. Baker into Bahasa Indonesia. I decided to start with the thickest parts and the most comprehensive as far as Grace Movement theology is concerned, but only certain topics from Baker's book. I gave copies to some of the workers to aid them in better understanding certain areas of our doctrine. Later I shared my vision with my friends to help me in this work—I ended up doing the translation of the whole book while they did the correction and

Church in Indonesia, June 2009, copies of *A Dispensational Theology* in Bahasa Indonesia were placed in the hands of pastors, Bible school teachers, and elders all over Indonesia, even in the office of the Department of Religion in Jakarta. Our pastors shared copies of the book with their friends in the seminaries and now some schools are using it as one of their textbooks.

Additional books are ready for printing: two books by Charles F. Baker, *Understanding the Gospels* and *Bible Truth*, both translated into Bahasa Indonesia by Pastor Piet H. Sambur, who joined my translation activities not long after I started the work. Other works by Grace authors are in the queue. I just finished editing one of the books, *Bible Truth*, expected to be in the hands of the workers by the first week of May, 2010 during the National Workers Conference in Balikpapan, Kalimantan (Borneo).

Our deep appreciation goes to all who prayed and financially assisted in making this vision and dream come true. We are grateful to all our Indonesian friends and missionaries who are contributing their precious time and knowledge in making this project bigger and better. On behalf of the Grace Churches in Indonesia I want to thank you all. Please continue to pray not only for the continuation, but for our aim to make this department self-sustaining. We see our way as the most effective way of propagating and perpetuating the amazing truth, using our limited resources, and in a short period of time, placing sound written materials into the hands of our people in their own native language. ⚙️

proofreading. Things to Come Mission sponsored us financially. The result was the creation of "Pustaka Alkitab Anugerah" (Grace Bible Literature Department) in Grace Bible Church, Indonesia. Luz Gaddi, serving as an English teacher in Indonesia at the time, supervised all proofreading needs.

After the successful launch during the 30th Anniversary of Grace Bible

and passion grew
to pass it on**

Grace Bible Church REACHES OUT

by Director Marthinus Kambey

Grace Bible Church known as GAA in Indonesia is equal to Things to Come Mission. Pastor Vernon & Darlene Anderson started their ministry in Manado and surroundings (formerly Celebes) in Oct.1973. By June 13, 1975 Yayasan Injil Anugerah was established, the embryonic stage of GAA. Young Manadonese dominated in the intensive training. These vibrant youth leaders had been saved aboard the M.V. Logos gospel ship anchored in Bitung Harbor in the 70's. Their enthusiasm knew no bounds and their sole desire in '73 was to learn more about the Bible. The Andersons' arrival ideally coincided with their spiritual quest and these youth wanted immediately to study the Bible when Bro. Vernon started teaching The Highway of Life lessons, an overall summary of the Bible from Genesis to Revelation. Both university and high school students became willing to be commissioned anywhere to share the Gospel of Grace. Eight impassioned young people hiked by foot from Manado in the north of Celebes to Palu and all the way to the south to Makassar, a distance of about 2000 kilometers, witnessing all along the way. Some went to jail temporarily for boldly witnessing, but quickly became heroes for suffering for their faith.

By April 1979 we conducted a three-week Intensive Training Session in Manado. Pastor Vernon & Darlene still provided some teachings then and 22 young people volunteered to be commissioned to 11 locations including Biak, Kotamobagu, Gorontalo, Palu, Poso, Makassar, Surabaya, Jakarta, Balikpapan and Tarakan. GAA established its headquarters in the capitol Jakarta on June 27, 1979. Grace Bible Institute started in Manado, December 1979 with Pastors M.K.Kambey and Herodian

IQBAL'S TESTIMONY

My name is Mochamad Iqbal Mustafa. I am 29 years old, an Indonesian by birth. I hope my testimony will be bright to other people. My father Zeth Mustafa was a great Moslem according to his belief. My mother Esther Ward was raised a Christian, but she did not accept Jesus as Savior at first. Then when my mother heard about the Gospel of Salvation from her sister, my mother accepted and trusted Jesus as her Savior, and also told my father many times. My father denied it, saying loudly, "Jesus is not The Lord and He is not a Savior!"

My mother felt regret about marrying my father because they now had different religions, whereas

before my mother did not trust in Jesus. She patiently told me and my brother Moammar Anzary about Jesus as Savior. At the beginning, I also did not like to know about Jesus. I was thinking, "Why did not Jesus save His own life on the cross.?" But my mother always gave me more and more lessons about the Truth of Jesus Christ. She talked to me about the Love of Jesus until finally I knew and understood that because of His great grace toward

"I rejoice for all [Christ] has done for me"

us, He stayed and died on the Cross, paying His blood for all sin. I trusted Him and accepted Jesus as Lord and Savior in my heart. I will be out from eternal hell and instead get eternal life in heaven. On April 7th 1993, I decided to accept and trust Jesus as my Savior. It made me feel joy and I rejoiced for all He has done to me, that He made me have a hope, I surely will go to heaven according to His Promises in Him whom I

trust. I refer you to the Bible-John 3:16.

Now I always thank God for His Grace, so great His salvation. I have been growing up more and more in Jesus Christ. As a youth, I serve in God's Ministry at Grace Bible Church. I also play the piano for our worship and prayer. On the period of 2007-2009 I was officially Vice National Youth Commissioner of Indonesia Grace Bible Church.. Praise the Lord, my brother also follows me and my mother to serve Him at Grace Bible Church in Balikpapan.

One of the most important priorities in my life is that I cannot stop talking about Jesus to those who do not trust Him because it is our responsibility as the people who trust in Jesus Christ. I refer you to the Bible- 1 Corinthians 9:16.

As I said, I hope my testimony will be bright to other people about the Lord Jesus who is Almighty! Amen. ✨

Lembean continued from pg 3

or in helping to start up new churches.

Accreditation for STTAM involves obtaining an original permit from Dept. Of Religion Republic of Indonesia. Once the permit is in hand, the school will begin steps for upgrading

SG2 Ministry (Second Grace Generation)

2008 STTA Graduation

the school. Faculty and visiting instructors already obtained licenses to teach, and now prayers are going up for the \$2000 Operational License needed.

Partnering with TCM includes vital communication via Skype, email and reports, keeping friends and donors aware of the progress of STTAM, getting together for pastors' Workshops and special occasions, cooperating together in the blessings of the Indonesia Field. ✨

Now Forming...

Freda and Pastor Mel Guimba

The Ladies Get a New Dormitory

Ozamis City, Philippines

A special dedication and thanksgiving service was held February 19, following an Advanced Leadership Seminar held at Grace Gospel Church, Maningcol, Ozamis City. A good number of workers and church leaders from five ministry districts surrounding the school were able to join the dedication.

The Ladies Dorm was built in three months under supervision of Pastor Noli Ongos, IGBI Campus Director. The new building was funded by a sizeable donation of \$20,000 from a generous US donor combined with local gifts from Philippine churches. Twenty-eight double-deck beds are available for the women students, a better kitchen, and improved space for study and fellowship. The new dorm is situated on land where one of the first cottages was built in 1959 for early TCM missionary teachers.

Always Working

Tanzania, East Africa during the 80's presented challenges from all directions for servants of the Lord. Our missionary brother Carl Moyer demonstrated daily just how much work it took to keep Livingstone Memorial Mission going. He and wife Jo labored literally night and day taking care of sick folks who came from all sides of the station at Tatanda. Even at night Carl and Jo were often out on the nearly impassable roads with motorcycle and sidecar rushing a mother in labor across the border into Zambia. Carl's toothpulling episodes amazed everyone...only dentist for hundreds of miles.

We observed that dramatic procedure personally when Carl extracted 134 teeth in six hours...all for free! It often seemed Carl had to mechanic one hour for every hour driven on the unpaved roads. But you always felt assured the trip would finish, and you felt happy listening to Carl tell so many stories and describing the varieties of birds flying overhead. Carl's

Carl Moyer

heart was always in Africa, in fact their home was ever a coveted place for friends and travelers, and Carl loved the

Always Serving

Tanzanian brothers in faith.

One of those delightful brothers was Pearson Simutowe. He trained in English with the Demings and moved up to become the head of Livingstone Mission. Pearson loved people and he showed them ways to live from the Scriptures. He walked beside his beloved wife, not ahead of her as the local custom was. He sponsored his son Kennedy to go on to high school and college, something almost unthinkable in Tatanda Village. Pearson knew his Bible doctrine well, ably preached with fervor, administered the church, took leadership responsibilities. He hiked, he hunted, he farmed his land to keep his large family, he even brought his wife gifts when returning from meetings in far places. He trained men in the Theological Education by Extension Program.

Pearson Simutowe

These two men are heroes to the gospel work in Tanzania, and we honor their testimonies. Their recent deaths were almost together and now their graves are in Tatanda together. And wonderfully, they both have missionary sons working successfully in Zambia and Malawi: Dan Moyer and Kennedy Simutowe. They worked...they served faithfully and well! ☀

-Vernon & Darlene Anderson

FOLLOWING ON

- ❖ **Sis Luz Gaddi** reports major successes for her Kenya seminars. She spent several months in Region 6 of Kenya inspiring Sunday school teachers and pastors, demonstrating new ideas for Sunday School, even challenging to use African music for teaching Bible truth. Her enthusiastic companion Charity also learned while counseling the women. She taught what she learned from Luz. Now Luz enters her next phase in August: seminars in Nairobi, the capital city, along with Thika and Machakos, nearby communities with TCM churches.
- ❖ **Jim & Missy Tollar** and their three kids are getting more and more excited to leave for Kenya, especially now that they have bought their tickets departing on Aug. 23. They are praising God for this first step accomplished. Now they need housing while studying to learn Kiswahili in preparation for entering the outreach in the coastal region around Mombasa, the 2nd largest city of Kenya. Peter Kagwi writes of two new Bible classes already moving forward at the coast. Tollars and Kagwi's will be working as a team to open work in this predominantly Muslim area.
- ❖ **Carlo and Elma Pana** are together again, working to keep on growing the new church in Kampala, Uganda, E.Africa. Elma was able to return from the Philippines after seeing son Charael back to health and into college. Carlo kept busy while alone, leading a children's program during January and keeping his class of Bible students studying using the books sent by USA donors in answer to requests in the last IH.
- ❖ The seasonal rains arrived after keeping **Kenya** under drought warnings for months, but now the farmers are smiling at being able to plant with hope for reaping what they sow.
- ❖ The whole congregation of Kempton Park church in South Africa greeted the arrival of **Dean & Sheba Padayhag** along with their new daughter Shedeia in May. It was a sensational beginning for the missionaries seeing how their new congregation had fulfilled their responsibilities to keep all the services going while Padayhags were on leave in the Philippines. Much praise goes up for this return and for new possibilities as they continue with the Bible training and visiting churches. The 4-in-one printer they had prayed for is now in hand and putting out literature for their exciting ministry.
- ❖ "Kids' hearts change!" says **Bob Xavier**, TCM missionary working out of Bradenton, Florida. He believes in rapid development of simple friendship based on modeling the character of Christ by caring about the interests of others. Bob is a black belt expert and asks prayer for seven Grace Martial Arts Bible Camps around the USA this summer.

Things to Come Mission prepares people for Jesus Christ's return through the methods of the Apostle Paul by sending missionaries to evangelize, plant churches and train leaders on six continents. Our financial support comes from free will gifts of churches and individuals. TCM will disburse gifts as they are designated. When a project is complete, TCM will use the gift for a similar purpose. As a 501(c)3 tax exempt organization, TCM issues tax-deductible receipts for all donations.

MEET NEW BOARD MEMBER: TIM HEATH

My first contact with TCM was when my folks went to the Philippines in 1967. I had never been on a foreign field so *missions* was exciting and mysterious to me. Throughout my ministry I have worked at sending youth and adults to the foreign fields to be a part of what God is doing in other lands. During my 4th year at GBC Judy and I were challenged to go to Europe... we went for 10weeks. I worked with PMA for 3 years. From the very first Bible study I led to my present ministry at Cascade Mountain Bible Church in Leavenworth, WA, I have endeavored to be a *missionary minded* pastor. God has opened doors to Canada, Mexico, Puerto Rico, Costa Rica, Curacao, Brazil, Bolivia,

England, Philippines, Africa and Thailand to teach and do seminars to encourage missionaries in their work for the Lord.

Response to Ondoy... Then came Pepeng

Pastor Gerson Bermejo, Director of TCM Philippines, writes about the flood relief

Ondoy and Pepeng, two disastrous typhoons, slammed into Central and Northern Luzon last September. A million pesos worth of properties owned by members was lost as a result of typhoon Ondoy. Even before Ondoy left the Philippines, Pepeng entered pouring rain, gusting winds up to 175 kilometers per hour. The floods in Laoag City and Tuguegarao forced members to evacuate. Pastor Simangan's house blew up. Both Bible schools incurred damage.

Bridge damaged by typhoons

The immediate response to help arrived the night after Ondoy when Pastor Ben Anderson, Pastor Joe Watkins and Pastor Sagrado Improso called me personally to inquire about the condition of our churches. Members promised financial assistance to Metro Manila and surroundings. These calls lifted up our spirit. We felt the love, concern and care of these brothers.

Timely help started arriving from USA as well as the Philippines to the total of \$10,770 from USA and \$3,250 from our own Filipinos. These amounts were very gratefully distributed as food and rehabilitation for our members. ☀

Fourteen Grace Churches were affected, seven with floods, making it impossible to hold Sunday services. Sixty-seven families searched for places to recover, some with relatives, others in government evacuation centers.

CLAG, our Central Luzon Association of Grace Churches, met on Oct. 4 to assess the damage and try to help manage the losses for homes, churches, Bible schools, and especially families. We knew we needed to distribute help for 293 individuals who were traumatized for lack of food, loss of belongings, lost business and ways of earning a living.

Food for the hungry

OFFICE ADMINISTRATOR

Christina Kermicle

I feel privileged to be able to serve God through the position of Office Administrator for TCM. I have always enjoyed being around mission work from listening to missionaries speak at my home church growing up to actually being able to go on two short-term mission trips. Both of these trips were life changing, one of which was the *Africa Safari 2007* with TCM. This trip was my first overseas missions experience and it really opened my eyes to what all is involved in missionary work. This trip led me to want to be more involved helping with missions. I am so excited to see what the Lord has in store for TCM and I am blessed to have this opportunity to be involved.

How can I help?

3 COUNTRIES
PROJECTS

PHILIPPINES

Projecting the Gospel

Pastor Jun Cadelina lives in Cagayan de Oro City on the island of Mindanao in the Philippines. His schedule is full of evangelistic meetings where thousands of people hear the gospel through films, songs, drama and messages. In the past we have helped with a gospel van and with tents. A projector which has shown thousands of gospel films is worn out—displaying just 3/4 of the picture. Let's help Pastor Jun buy a new video projector so that he can keep telling the lost about the great news of God's grace. Cost in the Philippines: \$950.

CAMBODIA

An effective tool for explaining the plan of God for the world is *The Highway of Life* by Mrs. Charles Baker, both the flannel graph set and the 25 lessons. Team Cambodia is busy translating this valuable evangelistic and training tool into the Khmer language. Did you know that 11,000 villages in Cambodia do not have even one church? *The Highway of Life* fits the bill as a rapid and reproducible method of training new Cambodian believers in the Bible. Cost to translate and print 350 sets of lessons: \$500.

INDONESIA

Upgrading the Bible School

The feature article of this International Harvest is Anderson Theological School in Lembean near Manado. The future Grace church leaders of this fourth largest country will come out of this school. Although the school is already conducting classes with 32 students on their Lembean property, several steps remain for it to be fully functional. One, the director and a teacher and their families need to move to Lembean. Two, a government fee must be paid for the school to be recognized by the government as a seminary. The students will benefit greatly from both of these moves. We are informed that moving the families is \$3000 and the government fee is \$2000 for a total of \$5000.
