

THE LONG WAY HOME

I thank God, first of all, for His wonderful Word and for His Holy Spirit who seeks to open our eyes to its truth. Whatever is of value, whatever delights the mind and feeds the soul in this volume, must have come forth as He patiently led and enabled the author, working in him both to will and to do of His good pleasure.

The Lord saw fit to use several people to help produce this book. I am grateful to a dear brother in Christ, Bruce Menconi, who gave me no peace, as he insisted I should put in writing some of the truths we discussed together. Two Medical Doctors were, I am sure, instruments in God's hands to give me time to do the writing, when they used their dedicated surgical skills to save my life.

Most of all, the patient care, loving encouragement, and faithful intercession of my wife, Eunice Heath, has made it possible to carry on this project – and I most wholeheartedly dedicate this book to her.

-- William P Heath
